## OBJECTIVE

Detail-oriented and highly motivated Computer Science graduate with a solid foundation in programming languages, algorithms, and web development.

## EXPERIENCE

### Cognifyz Technologies, Bhopal — Web Development Intern

SEPTEMBER 2023 - PRESENT

In this internship, the organization gave me an offer letter and some tasks. I have to complete these tasks in a given time period. In this I use techs to make website HTML | CSS | JavaScript | Bootstrap etc. And the organization will provide an internship certificate on completion.

## EDUCATION

### Corporate Institute of Science and Technology, Bhopal, MP India — B. Tech

AUGUST 2020 - JUNE 2024

This 4 year of journey was very well spent by me as I learnt a lot of new ideas and innovations as a computer science engineer. By having this type of punctuality in every field I got the best degree of my B. Tech period.

### Government Higher Secondary School, Khimlasa, MP — 12th

JULY 2019 - MAY 2020

Here, I completed my 10<sup>th</sup> and 12<sup>th</sup> with PCM subject to choose a bright future as my interest is in computer science engineering.

## PROJECTS

### Data Visualization — (Minor/Major Project)

Data visualizations are essential to understand complex data and generate results for business related and research purposes with the help of graphs and plots. In this I created **A Web Application** to show the raw data into visuals such as graphs or plots. I made a user-friendly interface which will be able to create an impact full of visuals and you just have to upload the data file in our tool.

Used Technologies — Python | Html | CSS | Flask | Python Libraries (like Matplotlib, Seaborn, Plotly etc.) | Database (like MYSQL and MongoDB etc.)
