OBJECTIVE

Detail-oriented and highly motivated Computer Science graduate with a solid foundation in programming languages, algorithms, and web development.

EXPERIENCE

Cognifyz Technologies, Bhopal — Web Development *Intern*

SEPTEMBER 2023 - PRESENT

In this internship, the organization give me an offer letter and some tasks. I have to complete these tasks in a given time period. In this I use these techs to make website HTM | CSS | JavaScript | Bootstrap etc. And the organization give an internship completion certificate.

EDUCATION

Corporate Institute of Science and Technology, Bhopal, MP India — *B. Tech*

AUGUST 2020 - JUNE 2024

This 4 year of journey was very well spent by me as I learnt a lot of new ideas and innovations as a computer science engineer. By having this type of punctuality in every field I got the best degree of my B. Tech period.

Government Higher Secondary School, Khimlasa, MP — 12th

JULY 2019 - MAY 2020

Here, I completed my 10th and 12th with **Mathematics Science** subject to choose a bright future with my interests in computer science engineering.

PROJECTS

Data Visualization — *(Minor Project)*

JULY 2022 - JANUARY 2023

Data visualizations are essential to understand complex data and generate results for business related and research purposes with the help of graphs and plots. In this I create **A Web Application** to show the raw data into visuals such as graphs or plots. I made a user-friendly User Interface which is create an impact full visual just you have to upload a data file in our tool.

USED TECHNOLOGIES — Python | Html | CSS | Flask | Python Libraries (like Matplotlib, Seaborn, Plotly etc.) | Database (like MQL etc.)
